The screenshot displays the Sonic Snipe bot interface. At the top, there's a header with the bot's name and a 'New Launch' button. Below this, the token 'COQINU' is selected, and a 'Chart' button is visible. The contract address '0x420FcA0121DC28039145009570975747295f2329' is shown. The interface lists the token's value in AVAX (\$67.38) and COQ (4,020,666.84), along with its price in AVAX (\$10.92). A 'My Snipe Settings (Avalanche)' section shows configuration options: Tax (5%), Gas (30.00 gwei), Tip (1), and Limit (500,000). Below this, the 'Amount to Buy' is set to 10,000,000 Tokens, and the 'Attempt To Buy' is set to 2. At the bottom, there are buttons for 'Buy (AVAX)' (checked), 'Buy (Tokens)' (unchecked), 'Snipe On' (checked), 'Anti Rug' (checked), 'Attempts (2)', 'Slippage', 'Gas Price', 'Gas Limit', 'Select Wallets', and 'Disabled' (unchecked).

The screenshot displays the Sonic Snipe bot's interface for monitoring limit trades. At the top, the bot's name 'Sonic Snipe' is shown with a lightning bolt icon. Below this, two trade setups are listed:

- Husky on Ethereum:** Includes a red checkmark icon, the token address `0x7ba3984fcaeCACc30272DD54abb8335f15105D90`, the wallet address `0x17b...5e526`, and a timer indicating 'Expires in 47 hours 16 minutes'.
- Palworld on Solana:** Includes a red checkmark icon, the token address `ERp2u3MrVC4iQR3kMuxpGvZLV1gEnZXc1KSHaPcxmMua`, the wallet address `9UeRo...uKYpb`, and a timer indicating 'Expires in 47 hours 51 minutes'.

Below the trade setups, the following information is displayed:

- Monitoring Gains:** Indicated by a magnifying glass icon.
- Current Price:** \$0.000342475.
- AutoBuy Price:** \$0.000504066200000.
- Amount to Buy:** 0.02 Tokens.

At the bottom, there are two buttons for managing the trades:

- 1) Husky:** A button with a red 'X' icon, indicating it is currently active or being monitored.
- 2) Palworld:** A button with a red 'X' icon, indicating it is currently active or being monitored.

Sonic Snipe Bot Providers

Just as RPC providers funnel data on different routes, so does Sonic Snipe Bot! If you encounter an issue (though rare), you have the option to switch your bot to one of the following backup servers. Rest assured all your data will remain the same.

Please note: Use only one bot at a time.
